PROJECTS / OPEN-SOURCE

Business portfolio's

HTML, CSS, JavaScript, API's

I've Designed sofiacommoditiesexim.com to enable seamless communication between exporters and buyers, showcasing product quality and building trust.

Weather app

HTML, CSS, JavaScript, API's

Designed a weather app using JavaScript and Postman for API integration, displaying real-time data, 5-day forecasts, and hourly weather details with dynamic DOM logic for a responsive, feature-rich interface.

Gym products

HTML, CSS, php, SQL

Optimized an e-commerce website for gym products, enabling customers to browse and purchase items easily. Implemented PHP Mailer to send order details to customers and used SQL for secure data storage and management.
